You need more than utility.
You need accuracy!

A 2006 study at the University of Florida concluded that neither the **Computerized Voice Stress Analysis (*CVSA*) *nor the Layered Voice Analysis (LVA) showed any sensitivity to the presence of deception or stress.***

A 2007 study at the University of Oklahoma, concluded **Computerized Voice Stress Analysis (*CVSA*) *and Layered Voice Analysis (LVA) showed poor reliability—not able to detect deception at a rate much better than chance.***

CRIMINALS ARE SMART. BE SMARTER.

While traditional criminal justice programs focus on investigation and prosecution only, a Criminology degree from Regis University goes beyond and adds the latest research and analytical insights into the criminal mind to explore the social and psychological factors that influence criminal behavior.

You'll fight crime better because you understand crime better.
